## Growing Gold-Silver Discovery in Northern Nevada

**Western Exploration** is focused on creating long term project value through discovery. The Aura Project is in a top tier mining jurisdiction and has three known mineral resources that are open for expansion. Through additional exploration and drilling our experienced team of geoscientists looks to increase the mineral resource base and then diligently move the project towards development.

Our team understands project development as we've participated in the exploration cycle from grassroots discovery, through brownfield exploration and delineation and into mine development. Our past experiences have prepared us for success at Western!

### INVESTMENT HIGHLIGHTS

- 100% owned Aura project
- Current 43-101 resource forms a solid base for growth through additional exploration
- Committed shareholder base including Agnico Eagle and Golkonda
- Top mining jurisdiction in the world according to the Fraser Institute Study
- Experienced management and board with members from Yamana, Meridian and Argonaut
- New analyst research from Fundamental Research

## Three Current, NI 43-101 Resources at Aura Project

1

### DOBY GEORGE

Near surface, at ~0.9 g/t oxide which could be fast tracked to a development decision within 18 months. Over 800 holes, open at depth.

2

### WOOD GULCH

Past producer, open pit heap leach. 1,500 m up dip of Gravel Creek with 1 km of untested ground between the two deposits (aka The Gap).

3

### GRAVEL CREEK

New gold-silver discovery averaging 4.73 g/t AuEq. High grade and true width in excess of 20 meters.

## Forward Looking Information

This document contains "forward looking statements" regarding Western Exploration (the Company) within the meaning of applicable securities legislation, including statements as to future events, results and plans. Such forward-looking statements reflect the Company's current beliefs and are based on information currently available to the Company and assumptions the Company believes are reasonable. Actual results and developments may differ materially from results and developments discussed in the forward-looking statements as they are subject to a number of significant risks and uncertainties, some of which are beyond the Company's control. Consequently, all of the forward-looking statements are qualified by these cautionary statements, and there can be no assurances that the actual results or developments will be realized or, even if substantially realized, that they will have the expected consequences or benefits to, or effect on, the Company. Mineral resources that are not mineral reserves do not have demonstrated economic viability. See the 2021 Updated Resource Estimates And Technical Report For The Aura Gold-silver Project, Elko County, Nevada. Effective Date October 14, 2021 on the Company's website or SEDAR. Derick Unger, Steven Ristorcelli, Peter Ronning and Jack McPartland are the authors and independent Qualified Persons responsible for this report.
